

Bob

"Snoopy-snoop."

This is Bob, a hungry BSF. He wants to eat everything he sees.

"Sniffle-snatch."

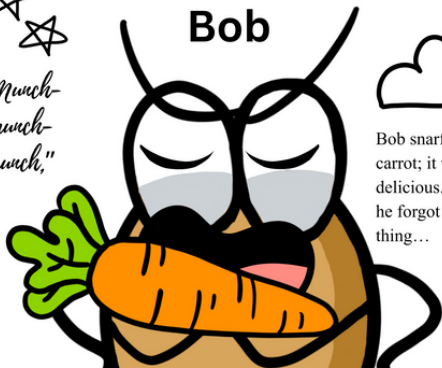

Bob

What's the smell? It is a carrot! Bob is soooo hungry, he ran to the carrot without any hesitation.

Bob

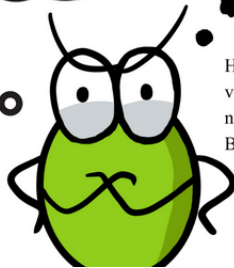

"Munch-munch-munch,"

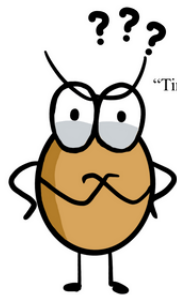

Bob snarfed the carrot; it was so delicious. But he forgot one thing...

Bob

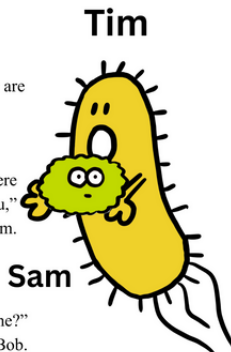

He can't digest vegetables, and now he's choking. Bob needs help!

"Tim and Sam? why are you here?"

"We are here to help you," said Tim.

Sam

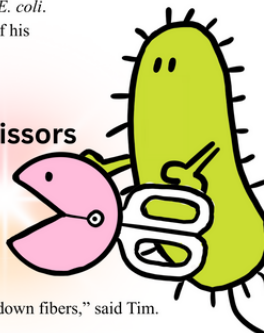

"I appreciate that, but what can you do for me?" asked Bob.

"Watch this," said Sam.

They joined forces and became a green *E. coli*. Then Sam pulled a pair of scissors out of his pocket.

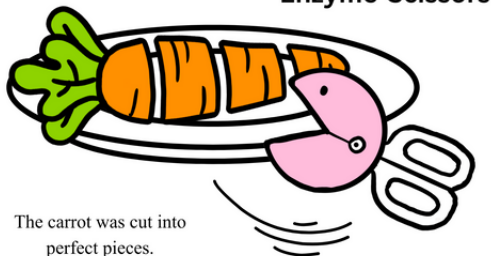

Scissors

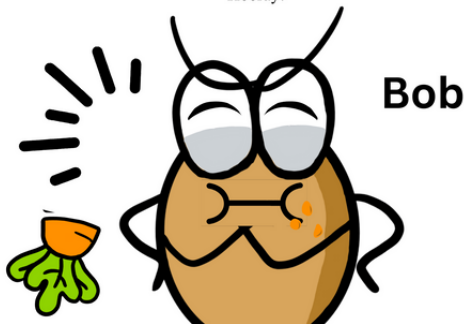

"It is an enzyme-scissors that can cut down fibers," said Tim.

Snip-snip!

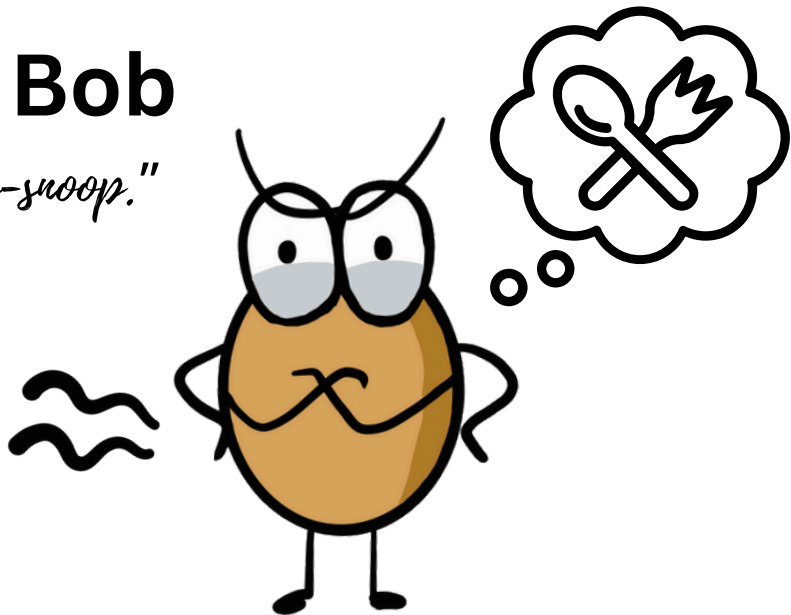

The carrot was cut into perfect pieces.

Now Bob can finally enjoy his carrot without getting choked by fibers!
"Hooray!"
